

## POWER CORD RULES

1. Due to changes in our grooming areas per national and state electrical codes there will only be one GFCI outlet per grooming area. Any grooming done with electricity must be done in grooming areas or inside barns.
2. No power cords can be run from inside the barns to the outside of a barn.
3. In cases of wet conditions exhibitors may not be allowed to use Grooming Areas or Power Cords. ASF Livestock Office will notify Exhibitors if this action needs to be taken. The decision will be made by ASF Livestock Management with the recommendation of the ASF Electrician.
4. Only one power cord allowed per electric outlet. No quad or duplex boxes will be allowed on the end of a power cord and only one dryer, fan, radio, etc. per power outlet.
5. All cords must be a heavy-duty commercial cord with a ground. Cords must also be of proper length (do not run 100 ft. of cord if 10 ft. from outlet).
6. All cords must be in top condition. No ragged, taped or altered cords will be allowed.
7. No power cords can be run on the ground where water is present, across roadways or public walkways.
8. All electrical boxes will remain locked and accessible ONLY to Arkansas State Fair Electrical/Maintenance Dept. Staff and some Livestock Office Staff.
9. The Arkansas State Fair Staff reserves the right to inspect any equipment, cords, electrical connections, etc. AT ANY TIME. Failure to cooperate with the instructions of State Fair personnel will result in immediate disqualification from competition at any Arkansas Livestock Show Association competition for a minimum of one year and premiums for the current year Arkansas State Fair will be forfeited.
10. Failure to comply with these regulations may result in confiscation of cords and/or equipment, forfeit of premiums, immediate disqualification from competition at the Arkansas State Fair for a minimum of one year, or any combination thereof.
