Section 4: Show Rules

Decision of Judges/Classifiers: Reputable judges and classifiers are selected by the Arkansas State Fair Show Management and show superintendents.

Interference with Judges/Classifiers: An exhibitor shall not in any way, whether in person or by affiliation, interfere with the judge/classifier during adjudication at Arkansas State Fair or an Arkansas Livestock Show Association event in which the exhibitor is participating. Such actions shall call for the Arkansas State Fair show management to exclude said exhibitor from competition and/or from the show ring, as well as withholding of premiums that may have been awarded.

Control of Animals: All open and junior exhibitors must have complete control of their animals in the show ring at all times. Exhibitors must be able to control their animal without the assistance of others. Bystanders, parents and spectators are not allowed in the show ring. Only designated livestock staff will be allowed in the ring. If an animal gets away from an exhibitor three (3) times during the class, the exhibitor will be excused from the class and disqualified. If an animal/exhibitor

is late once the class has entered the ring, that exhibitor will not be allowed to enter the class and will be disqualified. All breeding cattle and steers for exhibition must be shown with halters and be sufficiently gentle to be properly handled by one attendant. All bulls, six months or older, must be shown with a nose ring or nose clip and lead.

Time of Judging: The Livestock Schedule, as published in the Livestock Exhibitor Handbook, will be followed as closely as possible. Exhibitors should ascertain as to what time their exhibits would be judged. Any exhibit not presented promptly on schedule will be ruled out and barred from competition in the class called. No complaint or protest on the grounds that the judge overlooked said exhibits will be considered. Paging for shows is provided as a courtesy by the Arkansas State Fair, but it is the responsibility of the exhibitor to maintain and follow the required schedule.

Disqualified Animals: Should any animal awarded a prize be disqualified, the animals gaining the lower prizes should graduate up into the higher positions next in order above them. If an animal is disqualified after the conclusion of the State Fair, the placings will remain the same.

Showing for Adjudication: All exhibitors must bring into the arena for adjudication any animal or animals properly entered in any show class as eligible for competition. No animal will be awarded a prize unless removed from its stall or pen and properly exhibited before the judge in the show ring.

Protests: All protests must be in writing and accompanied by a deposit of \$250.00, cash or certified check, which will be forfeited if protest is not sustained. Such protest must state plainly the cause of the complaint or appeal and must be delivered to the Livestock Office to show management within two hours after the occasion for such protest. Any protest as to the eligibility on account of age of breeding of animals must be filed with the show management prior to the day on which they are to be judged. In this case, the decision of the Breed Association of Record for the animal(s) in question will stand in accordance with the conclusion of the show management. Protests must be submitted either prior to judging or immediately after the conclusion of class judging. Judging procedures will NOT be interrupted for protest investigation; and depending on the basis of the protest, a decision may be withheld until a thorough investigation is completed. In addition to the right to protest herein granted to exhibitor, the Arkansas State Fair reserves the right to take cognizance of fraud consummated or attempted in connection with an exhibit and take such action as may be deemed just and proper, and as may be warranted in these premises. No protest or appeal based upon the statement that the judge or judges are incompetent will be considered by the show management. All questions in dispute or difference not covered by these rules will be referred to the show management, whose decision shall be final. The decision of Classifiers, Weigh Masters, Judges, and Veterinarians shall NOT be subject to protest or appeal.

Interpretations and Violations of Rules: The Arkansas State Fair reserves, to its show management, the final and absolute right to interpret these rules and arbitrarily settle and determine all matters, questions, and differences in regard thereto, or otherwise arising out of or connected with, or incident to the Arkansas State Fair; and the right to amend, interpret, or add to these rules as its judgment may determine. An exhibitor who violates any of the rules will be subject to such penalty as the Livestock Department show management may order.

Attesting of Awards: The judges, superintendent, and a clerk must sign the award book with awards entered after each show. The judge and superintendent should use special care to see that each award is properly entered in the award book.

Discourtesy/Disobedience: Any act of discourtesy or disobedience to Arkansas State Fair officials on the part of the exhibitor, parents, or sponsors will disqualify exhibitor from the contest, and the owner shall forfeit their entrance and other fees. Junior exhibitors will be expected to adhere to the 4-H Code of Conduct and/or FFA Code of Ethics while participating in all Arkansas State Fair events.

 Arkansas State Fair livestock department strives to create an atmosphere that encourages good character, accountability and ethical decision making. The International Association of Fairs and Expositions (IAFE) National Code of Show Ring Ethics outlines a number of specific guidelines for all exhibitors and others involved with 4-H/FFA livestock projects.

In summary, these guidelines expect the following:

1. Exhibitors: Exhibitors of animals at livestock shows shall at all times conduct themselves with honesty and good sportsmanship. Exhibitors in this competitive environment shall always reflect the highest standards of honor and dignity to promote the advancement of agricultural education. This code applies to all livestock offered in any event at a livestock show. In addition to the "IAFE National Code of Show Ring Ethics," fairs and livestock shows may have rules and regulations that they impose on the local, county, state, provincial and national levels.
2. Leaders: All leaders working with junior exhibitors are under an affirmative responsibility to do more than avoid improper conduct or questionable acts. Their moral values must be so certain and positive that those younger and more pliable will be influenced by their fine example. Parents, owners, exhibitors, fitters, trainers, and responsible persons who violate the code of ethics will forfeit awards and auction proceeds and shall be prohibited from future exhibition in accordance with the rules adopted by the respective fairs and livestock shows. Exhibitors who violate this code of ethics demean the integrity of all livestock exhibitors and should be prohibited from further competition.

Prohibited Acts: The following actions are prohibited at the Arkansas State Fair.

- Administration of a drug of any kind or description, internally or externally, prior to entering the show ring, is prohibited. The use of any performance enhancing drug or drug/medication/treatment which gives an animal an unfair competitive advantage is prohibited. For the purpose of these rules, the term "legal drug" shall mean any substance, the sale, possession or use of which is controlled by license under federal, state or local laws or regulations and any substance commonly used by the medical or veterinary professions. The use of any drug, chemical and/or compound that is not approved by the Food and Drug Administration for use in meat producing animals, or which is not labeled by the FDA for use by that specie of animal, or which exceeds the FDA/EPA/USDA established tolerances for any foreign substance and the illegal use of approved chemicals and/or compounds are prohibited. All animals shall be subject to tests, (blood, urine, tissue or other testing), for approved and unapproved substances and for drugs, chemicals, compounds or foreign substances that exceed the acceptable levels established by the United States Department of Agriculture, Food and Drug Administration or the Environmental Protection Agency. In addition, any animals that have been previously administered a drug that is FDA approved for its species at the levels accepted by the FDA, are subject to disqualification if the animal tests positive for that drug while on the Tulsa State Fair premises. A positive test will result in

disqualification, forfeiture of any premiums and/or awards and will exclude the exhibitor from future competition at the Tulsa State Fair. The opinions, test results and conclusions reached by the testing laboratory used by the Tulsa State Fair for these tests shall be final and binding upon the exhibitor, without protest or recourse against the Tulsa State Fair. The exhibitor understands and agrees that he is not entitled to any independent testing or to submit any blood, urine, tissue or other samples to any other laboratory, and the opinions, test results and conclusions reached by the testing laboratory used by the Tulsa State Fair are final and binding and shall not be contested by exhibitor and this is an express condition to exhibitor's participation at the Tulsa State Fair.

- The injection, use, or administration of any drug to the animal that is prohibited by Federal, State, or Local Law or any drug that is used in a manner prohibited by Federal, State, or Local Law.
- The **injection or internal or external administration** of any product or material, whether gas, solid, or liquid to an animal for the purpose of deception, including concealing, enhancing, or transforming the true conformation, configuration, color, breed, condition, or age or by making the animal appear more sound than would otherwise appear.

- Added hair or other material, natural or man-made (excluding false switches).
- Altering of hooves using unnatural products.

Drenching: Drenching of animals using appropriate methods is allowed in designated areas including wash racks, tie-outs, and in grooming chutes/stands.

Exhibitor Responsibility: It is the sole responsibility of the exhibitor to follow all rules contained herein. Extent of knowledge on the part of an exhibitor with regard to the animal being subject to any prohibited act is not relevant to any issue, and it shall not be a defense that a person or persons unknown subjected the animal to any prohibited act.

Penalties: Any exhibitor who violates any of the rules contained herein, or whose animal has been found to be in violation of the rules is subject to such penalties as the management may order, including but not limited to:

- Such animal being barred from competition at the Arkansas State Fair or any Arkansas Livestock Show Association event.
